Because size matters...

Andromedical is offering a
guaranteed solution to penis
size. Based on the principle
of traction, the purpose of
this treatment is to stimulate
the growth of the tissues of
the penile shaft, which is
translated in:

- Permanent lengthening
of the penis of three to four
centimetres in erection.
- Also three to four centi-
metres in flaccidity.
- And a thickening of one
centimetre in girth.

**THE CENTIMETRES
GAINED WILL LAST
A LIFETIME!**
